## MINI TRANSFERT PRESS

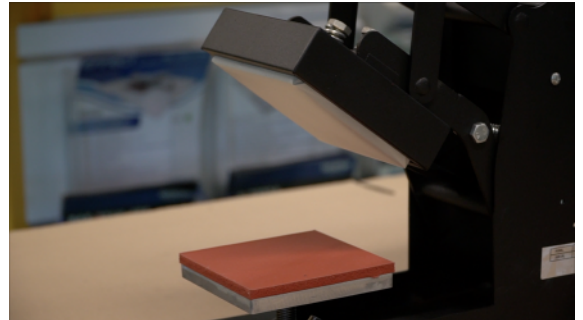

### Panel

The operating panel with LCD display allows you to set the temperature that the press must reach and the pressing time: at the end of which it will warn with an audible alarm.

### Dimensions

This mini transfer press suitable for welding logos and serigraphs is available in two different sizes suitable for this type of work: 12x12cm or 12x15cm.

### Materials

The press is able to weld logos on materials of different types and thicknesses such as t-shirts, sports fabrics, padded and more in a few seconds simply by setting the appropriate time and temperature.
